This book documents in lavish detail the unique styling, engineering, and performance of Porsche's new mid-engine coupe - the Porsche Cayman. Produced in cooperation with Porsche AG, the book includes behind-the-scenes design blueprints, studio sketches and cutaway drawings, spec information, specially commissioned photography including testing and development, and historical comparisons with the 904 racing car. Beautiful, commissioned photography and an engaging text tells the Cayman story in all its splendor—performance, technical features, handling, lightweight construction, intelligent use of space—at once a true Porsche and a unique model in its own right in the family of legendary sports cars. Leading German automotive photographers and journalists worked with Porsche, and the book is printed using a 7-color process and varnished pages for a luxurious look and feel (most illustrated books use a 4-color process and lesser glossy pages). Porsche Cayman is the ultimate collectible for any owner of the new car, and an essential contribution to any Porsche enthusiast's library.

Porsche Boxster and Cayman follows the design and development of this mid-engined sports car and coupe family, from their origins in the company's concerted racing activities in the 1950s and 1960s, to the drawing board, launch and systematic evolution through successive model ranges from 1996 to 2016. There are detailed profiles and evaluation of all Boxster and Cayman derivatives, including 986, 987, 981 and 718. Specifications of the various models are given including entry-level, S, GTS and GT-4. The special Limited Editions, such as the 550 Spyder 40th Anniversary models are also included. The book covers some of the author's international driving experiences at the wheel of Boxster and Cayman including the Blister Berg race circuit and Tour Auto. There is also an intriguing interview with successful racer Rebecca Jackson, who describes the techniques of Boxster racing and demonstrates the versatility of this best-handling of all Porsche sports cars and an interview with Porsche design chief Harm Lagajaj. The book will be of great interest to all motoring enthusiasts and historians and is illustrated with 400 colour photographs, many specially commissioned.
