### has been eliminated.

Madeleine L'Engle's ground-breaking science fiction and fantasy classic, now a major motion picture. It was a dark and stormy night; Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing

as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem. *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It is

is its own purpose. Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and a clear predecessor to her later masterpieces. The Fountainhead and Atlas Shrugged. In Anthem, Rand examines a frightening future in which individuals have no name, no independence, and no values. Equality 7-2521 lives in the dark ages of the future where all decisions are made by committee, all people live in collectives, and all traces of individualism have been wiped out. Despite such a restrictive environment, the spark of individual thought and freedom still

burns in him--a passion which he has been taught to call sinful. In a purely egalitarian world, Equality 7-2521 dares to stand apart from the herd--to think and choose for himself, to discover electricity, and to love the woman of his choice. Now he has been marked for death for committing the ultimate sin. In a world where the great "we" reign supreme, he has rediscovered the lost and holy word--"I."

The Scarlet Letter: A Romance is a work of historical fiction by American author Nathaniel Hawthorne, published in 1850. Set in Puritan Massachusetts Bay Colony during the years 1642 to 1649, the novel tells the story of Hester Prynne who conceives a daughter through an affair and then struggles to create a new life of repentance and dignity. Containing a number of religious and historic allusions, the book explores themes of legalism, sin, and guilt. The Scarlet Letter was one of the first mass-

And Scientists are generally responsible for making laws, financing research, or, at the very least, for voting, it is essential that they understand the significant impact that science has on everyday life. The book is designed to introduce nonscientists in an informative and comprehensible manner to four of the most significant scientific theories of the twentieth century: the big bang, quantum physics, relativity, and evolution. After each theory is explained informally, the book shows how that theory and related technology impact upon one's personal
