The Chartered Institution of Building Services Engineers (CIBSE) is the prime source of expertise in the Building Services industry.

CIBSE - Chartered Institution of Building Services Engineers

Guide H: Building control systems (2009) Good controls are essential for the safe and efficient operation of a modern building. A control system must not only keep the inside of a building comfortable for the occupants, it must also keep the HVAC plant operating efficiently, and be capable of two-way communication with personnel charged with its operation.

CIBSE and others recommend stopping central recirculation during the Covid-19 outbreak, by closing dampers via the BMS. While bypassing recirculation may impact the building's heating or cooling capacity, CIBSE says 'it was more important to reduce contamination risk and protect public health than to guarantee thermal comfort', and ...
