Swami Muktananda, known to all as Baba, was born in 1908 near Mangalore in South India. After leaving home at the age of fifteen, he spent many years searching for an experience of God. In 1947 the great Siddha yogi, Bhagawan Nityananda gave him what he had been looking for. Under Nityananda's guidance Baba attained Selfrealization, and when Nityananda took mahasamadhi in 1961, he gave Baba the power to give this experience to others.

In the past fifty years scientists have begun to discover how the human brain functions. In this book Wilder Penfield, whose work has been at the forefront of such research, describes the current state of knowledge about the brain and asks to what extent recent findings explain the action of the mind. He offers the general reader a glimpse of exciting discoveries usually accessible to only a few scientists. He writes: "Throughout my own scientific career I, like other scientists, have struggled to prove that the brain accounts for the mind. But perhaps the time has come when we may profitably consider the evidence as it stands, and ask the question...Can the mind be explained by what is now known about the brain?" The central question, he points out, is whether man's being is determined by his body alone or by mind and body as separate elements. Before suggesting an answer, he gives a fascinating account of his experience as a neurosurgeon and scientist observing the brain in conscious patients. Originally published in 1975. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

This compilation of questions and answers, drawn from talks and conversations between Swami Muktananda and spiritual seekers he met as he traveled in the West, covers a range of topics, from the first questioning of the nature of existence to the final attainment.

Through exposition, scriptural stories, and question and answer sessions with seekers, Swami Muktananda addresses subjects such as

spiritual discipline, ego, money, marriage, and parenting.

For centuries, readers have turned to the Bhagavad Gita for inspiration and guidance as they chart their own spiritual paths. As profound and powerful as this classic text has been for generations of seekers, integrating its lessons into the ordinary patterns of our lives can ultimately seem beyond our reach. Now, in a fascinating series of reflections, anecdotes, stories, and exercises, Ram Dass gives us a unique and accessible road map for experiencing divinity in everyday life. In the engaging, conversational style that has made his teachings so popular for decades, Ram Dass traces our journey of consciousness as it is reflected in one of Hinduism ' s most sacred texts. The Gita teaches a system of yogas, or " paths for coming to union with God. " In Paths to God, Ram Dass brings the heart of that system to light for a Western audience and translates the Gita ' s principles into the manual for living the yoga of contemporary life. While being a guide to the wisdom of the Bhagavad Gita, Paths to God is also a template for expanding our definition of ourselves and allowing us to appreciate a new level of meaning in our lives.
