This textbook presents basic financial accounting concepts and shows your students how they apply to the hospitality industry. Hospitality Industry Financial Accounting, Fourth Edition, was prepared in conjunction with the brand-new 11th revised edition of the USALI, to which Ray Schmidgall was a key participant. Revisions to a number of chapters have been made to reflect all of the changes made in this latest edition of the USALI.

The objective of this textbook is to teach students to be conversational in speaking “numbers.” This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today’s leading hotel and restaurant companies. Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to

spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Hospitality management students and professionals responsible for accounting functions at their property, or who aspire to a career in hospitality accounting, will benefit from this textbook. This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a hospitality setting. Chapters reflect new tax laws and the impact of the Sarbanes-Oxley Act, as well as the results of new survey research on updated practices in capital budgeting and leasing. Readers will learn to make effective choices based on the numbers that affect daily operations, develop on-target budgets and control cash flow, reach profit goals with the help of financial reports and other tools, and apply the latest uniform systems of accounts for hotels and restaurants.

Updated with the latest developments in the accounting and hospitality fields, Hospitality Financial Accounting, Second Edition covers the basics of financial accounting and then walks you through analyzing financial statements and dealing with the daily issues you'll face on the job. In this Second Edition, the authors have provided engaging new coverage and features that includes new case studies, an expanded section on ethics, new "Accounting in Action" vignettes, applied exercises, and new coverage of casinos, spas, and purveyors.

turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly practical in its scope and approach, this book:

- Outlines the procedure and purpose behind various financial activities - including budgeting, year-end financial statement analysis, double-entry accounting, managing and analysing costs, working capital management, and investment decision making
- Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base
- Clearly highlights the key financial issues you need to consider in a host of decision making situations
- Includes a range of problems to help readers appraise their understanding of concepts - with solutions provided for lecturers at <http://textbooks.elsevier.com>.

At all times, the book rigorously applies itself to the specific needs of the hospitality decision-maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory, Financial Management for Hospitality Decision Makers is ideal for all students of hospitality, as well as being a vital source of information for practitioners already in the industry.

For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business. Yet having a grasp of accounting basics is a key part of management. Using an 'easy to read' style, this book provides a comprehensive overview of the most relevant accounting information for hospitality managers. It demonstrates
