2-1. Alphabetic case of the extension is not important from the compiler ' s point of view, but most operating system shells are case sensitive. This means, for example, that a C source file must have a .c extension.

Assembler files can use either .as or .asm extensions.

Standard File Types.
There are several
common file types
used with regards to
email. EML format.
EML files are the
most common type of
email files. An EML
file contains the raw

Access PDF Htc Leo Manual File

message content.

Most email software can export and import EML files simply, because that is how the messages are stored internally.
