The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate." O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend

never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

Even when I was funny, I wasn't this funny' Augusten Burroughs, author of *Running With Scissors* Have you ever embarrassed yourself so badly you thought you'd never get over it? Have you ever wished your family could be just like everyone else's? Have you ever been followed to school by your father's herd of turkeys, mistaken a marriage proposal for an attempted murder or got your arm stuck inside a cow?

'Even when I was funny, I wasn't this funny.' Augusten Burroughs. For fans of Tina Fey, David Sedaris and anyone who's ever felt like a misfit, an outrageously funny and disturbing memoir from Jenny Lawson, aka The Bloggess. 'When I tell people that my father is kind of a total lunatic, they laugh and nod knowingly. they assure me that theirs is too, and that he's just a "typical father". And they're probably right, if the typical father runs a full-time taxidermy business out of the house, and shows up at the local bar with a miniature donkey and a teddy Roosevelt impersonator, and

thinks other people are weird for making such a big deal out of it. If the typical father says things like "Happy birthday! Here's a bathtub of raccoons!" or "We'll have to take your car. Mine has too much blood in it," then yeah, he's totally normal.' When Jenny Lawson was little, all she ever wanted was to fit in. that dream was cut short by her fantastically unbalanced father and a childhood of wearing winter shoes made out of used bread sacks. It did, however, open up an opportunity for Lawson to find the humour in the strange shame-spiral that is her life, and we are all the better for it. Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments - the ones we want to pretend never happened - are the very same moments that make us the people we are today. In her diary, middle school student Jamie Kelly describes her life at home and at school, including her attempts to triumph over her nemesis, the beautiful and popular Angeline.

The Thing About Jellyfish meets The Kind of Friends We Used to Be in this sweet, honest middle grade debut. If it were up to Mattie Markham, there would be a law that said your family wasn't allowed to move in the middle of the school year. After all, sixth grade is hard enough without wondering if you'll be able to make new friends or worrying that the kids in Pennsylvania won't like your North Carolina accent. But when Mattie meets her next-door neighbor and classmate, she begins to think maybe she was silly to fear being the "new girl." Agnes is like no one Mattie has ever

met—she's curious, hilarious, smart, and makes up the best games. If winter break is anything to go by, the rest of the school year should be a breeze. Only it isn't, because when vacation ends and school starts, Mattie realizes something: At school Agnes is known as the weird girl who no one likes. All Mattie wants is to fit in (okay, and maybe be a little popular too), but is that worth ending her friendship with Agnes?

"Jenny made me laugh so hard I feared for my safety! I think that's how she was able to get past my defenses and make me feel more okay about myself." -Allie Brosh, author of *Hyperbole and a Half* For fans of David Sedaris, Tina Fey, and Mindy Kaling—the new book from Jenny Lawson, author of the #1 New York Times bestseller *LET'S PRETEND THIS*

NEVER HAPPENED... In LET'S PRETEND THIS NEVER HAPPENED, Jenny Lawson baffled readers with stories about growing up the daughter of a taxidermist. In her new book, FURIOUSLY HAPPY, Jenny explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. And terrible ideas are what Jenny does best. According to Jenny: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal

experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos." "Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Jenny's first book, *LET'S PRETEND THIS NEVER HAPPENED*, was ostensibly about family, but deep down it was about celebrating your own weirdness. *FURIOUSLY HAPPY* is a book about mental illness, but under the surface it's about embracing joy in fantastic and outrageous ways-and who doesn't need a bit more of that?
