You were created to be God ' s agent of blessing to your children Blessing is a custom established by God and is meant to function in every family. In fact, there are seven critical times in each of our lives when God wants to give us a powerful message of identity and destiny. In The Power of a Parent ' s Blessing Craig Hill explains each of these times, answering key questions such as: · What is the key identity question to be answered in your child ' s heart? · When is the appropriate time to bless? · What are potential consequences of not blessing? · What is the role of each parent in blessing at this specific time? · What are practical tools to use in blessing? It is never to late to start your children on the road to fulfilling their destinies. Whether you are a parent, grandparent, or step-parent, these powerful blessings will help the children in your life to prosper.

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

Dreams are at the heart of a process where tangible and intangible worlds are intimately intermingled. Indeed, a dream is an intangible phenomenon occurring in a physical body that stands in an environment both material and informational (intangible). A systematic investigation of the connections between dreams and reality sheds new light on the dream process and on the functioning of the mind. This book invites you, the reader, to discover the results you can achieve through a more comprehensive and unified approach to the dream process. It gives you advice on how to carry out your own research. Reading this book will help you become better aware of the role played by your body at the meeting point between dreams and reality, between the tangible and the intangible (Chapter 1). The book describes an efficient method for observing the dream process (Chapter 2) and explains the results you can achieve with it through your own experimentation (Chapter 3). Through your personal exploration of the whole dream process you will be able to verify for yourself the reality of certain faculties of the mind which are commonly considered to be "paranormal". You will see that they can be explained rationally. Chapter 4 of the book explains how you can use the dream process to find answers to your questions, whether they regard your daily life (health, work, relationships, life guidance) or your artistic or scientific creativity. The last chapter (Chapter 5) explains why faculties today considered to be paranormal are destined to a natural collective awakening. With this book, I invite you to observe your dreams and their connections with your reality, with a mind as neutral as possible. This is the best way to understand the meaning of your dreams. Try, then, to forget all you have ever heard about dreams, and just look at them and observe the whole dream process, and not only the dreams. Everything I assert in the book can be verified through personal experience by using the proposed method of observation. With this method everyone, even the most skeptical person, can verify the existence of unusual faculties of the mind, and learn to develop and use them. Key words: dreams and reality, precognitive dreams, future in dreams, premonitory dreams, dream interpretation, meaning of dreams, paranormal faculties, telepathy, dreams and health, dreams and abundance, dreams and the past, mind and body, nightmares, dreaming brain, lucid dreams

It's Diary of a Wimpy Kid for girls! Find out just what happens when class is not in session in this first book in the BLOGTASTIC! series. Gossip from the Girls ' Room fills readers in on all there is to learn about middle school life at Middlebrooke, where Sofia has her very own blog and discusses all the juicy gossip that comes out of the Girls ' room. In Sofia's words . . . Mia St. Claire is only the most popular girl in all of Middlebrooke Middle School. For three very obvious reasons: 1. She's very rich. 2. She has tons of money. 3. She can buy anything and everything she wants. And she does. I'm sure people like her for other reasons too, but none of those reasons are obvious enough for me to really know. Or care about, for that matter.

Enjoy a different story every day of the year with this beautifully illustrated treasury for boys. From traditional favorites to new tales, it is perfect for reading together or for children to read to themselves. Which story will you read today?

Patrick Dyer's ninth book in the 'at work' series marks a return to Scania to study the 3-series trucks produced between 1988 and 1996, with the emphasis on the 113 and 143 models. In much the same way as these trucks evolved from the previous 2-series and LB (1-series) so too does the book, taking the story forward from the previous titles covering those ranges. For Scania, masters of the modular system and evolutionary engineering processes, the 3-series represented the pinnacle of development for designs born decades earlier. Industry recognition of its achievement came early with the range being awarded the Truck of the Year title in 1989. With over 200 photographs provided by the manufacturer and enthusiasts, Scania 113 & 143 at Work charts the story of the 3-series through informative text in the popular and familiar style of previous 'at work' titles from the same author.
