identification
and management

Online Library

Risk

are the main concerns in every software project.

Effective analysis of software risks will help to effective planning and assignments of work. In this article, I will cover what are

Online Library

Risk

the “Types of Risks”.

~~Types of Risks
in Software
Projects~~

What Is Risk In
Software

Engineering?

Very simply, a risk is a potential problem. It's an activity or

Online Library

Risk

event that may compromise the success of a software development project. Risk is the possibility of suffering loss, and total risk exposure to a specific project will account for both the probability

Online Library

Risk

and the size of
the potential
loss.
