Beijing will continue to export its market authoritarian model as long it keeps the leaders in power. Taken together The Beijing Consensus central arguments are difficult to challenge. There's growing evidence throughout sub-Saharan Africa that Beijing's influence is growing. China nowadays produces everything from shoes to space crafts.

*Time*  
Stefan Halper's work *The Beijing Consensus* offers a somewhat ominous world future and the US position in it. The title of his book, a play on the term "Washington Consensus" coined in the late 80s and early 90s refers to how the west, specifically the United States, represented by Washington is losing ground in the Third World community and how Beijing (China) is picking up the slack and ...
