The best-known ghost story from ancient Egypt is known, simply, as A Ghost Story but sometimes referenced as Khonsemhab and the Ghost. The story dates from the late New Kingdom of Egypt (c. 1570 - c.1069 BCE) and specifically the Ramesside Period (1186-1077 BCE). It was found in fragments on ostraca (pottery with writing on it) which scholars such as Georges Posener (in 1960 CE) and Jurgen von Beckerath (in 1992 CE) claim are copies of a much older story from the Middle Kingdom of Egypt ...

The ancient world comes to life in the first volume in a two book series on the history of Egypt, spanning the first farmers to the construction of the pyramids. Famed archaeologist John Romer draws on a lifetime of research to tell one history's greatest stories; how, over more than a thousand years, a society of farmers created a rich, vivid world where one of the most astounding of all human-made landmarks, the Great Pyramid, was built. Immersing the reader in the Egypt of the past, Romer examines and challenges the long-held theories about what archaeological finds mean and what stories they tell about how the Egyptians lived. More than just an account of one of the most fascinating periods of history, this engrossing book asks readers to take a step back and question what they've learned about Egypt in the past. Regarded by many as the first major historian, Herodotus was a Greek scholar and traveler who set down his impressions of foreign countries and his analysis of wars and other significant events in a relatively straightforward, journalistic manner.
