During the Peninsular War, however, Wellington led and trained an army that never knew a major defeat on the field. Even Wellington himself described his army as 'able to go anywhere or do anything'. This book examines the formidable British Army which played an integral part in stalling Napoleon's advance, focusing on the staff, infantry, cavalry, artillery and sieges and sappers.

The British Army during the Napoleonic Wars experienced a time of rapid change. At the beginning of the French Revolutionary Wars in 1793, the army was a small, awkwardly administered force of barely 40,000 men. By the end of the period, the numbers had vastly increased. At its peak, in 1813, the regular army contained over 250,000 men.

British Army during the Napoleonic Wars - Wikipedia
At the Battle of Vitoria on 21 June, Joseph's 65,000-man army were defeated decisively by Wellington's army of 57,000 British, 16,000 Portuguese and 8,000 Spanish. Wellington split his army into four attacking "columns" and attacked the French defensive position from south, west and north while the last column cut down across the French rear.
